Subject: FW: my thoughts on next steps to prepare for next Azarga call for your consideration

Flag: Follow up

Sarah: I am happy to meet briefly on the phone with you and Valois tomorrow given that she may not have that many questions for PT on the AE comments at this point. Your thoughts?

Douglas

I could use Rick's help evaluating some technical reports supporting the need for the additional monitoring. If you could ask Karen for about 2 weeks of his time, I could set up a kick-off meeting with him next week.

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

What do you think about that as a next step?

Subject: RE: Would you contact R6 and see if I can have a call with the person who worked on the Burke Hollow AE approval, please?

Thanks Valois: might this be one example of where someone like Rick Arnold could help given the need for technical document review you mentioned on our Friday call with Sarah? Given that we are trying to stay on a fairly tight timeframe for the next call with Powertech (Feb 16th), would you agree? Specifically, I am recalling our conversation about finding someone who could work with you both technically and handle the logistics on tribal consultation. Any suggestions of who could help with the latter? I can talk with Karen about Rick helping but it would help if you could give me some examples of a possible scope of work for him.

I will take a look at the attached document and be in contact with Phil,

Douglas

Hi Douglas,

Our call with John prompted me to move on to reviewing the references Azarga provided related to their new proposal for the AE boundary. One of the documents was the AE R6 approved for Burke Hollow. It would be helpful to have R6 walk through their evaluation process and how they arrived at the AE boundary they approved. I have attached it in case you would like to see it.

Thanks!

Valois
